

Cluster Analysis Report — Cluster 3

Generated: 20251207_073835
Customer Count: 5

Executive Summary

The cluster comprises high-income, salaried individuals with excellent credit scores, residing in tier 1 cities. Despite negative confidence scores, these customers are strong candidates for car loans due to their financial stability. It is recommended to investigate the confidence score anomaly and target this group with premium loan products at competitive rates. Their financial profiles suggest a low risk of default, making them ideal for strategic marketing efforts.

Cluster Overview

This cluster consists of high-income, salaried individuals residing in tier 1 cities, with excellent credit scores. Despite their strong financial profiles, the negative confidence scores suggest potential data issues or misclassifications.

Confidence Score Distribution

Average: -14.714
Range: -17.587 - -10.230
Median: -15.938

Key Prediction Factors

- 1. High income levels indicating strong repayment capacity
- 2. Excellent credit scores reflecting financial responsibility
- 3. Stable employment as salaried individuals in tier 1 cities

Recommendations

- 1. Investigate the negative confidence scores to ensure accurate loan eligibility predictions.
- 2. Focus marketing efforts on promoting premium car loan products to this cluster.
- 3. Leverage their high credit scores to offer competitive interest rates.
